ed to us for publication : GILMANTON, N. H., June 24, 1852. You are probably aware that at the commencemen years a resident of the city of the Aztecs. During the war I was twice expelled from the city, the suspicions of the government having been awakened manner in which I treated Maj. Gaines, Maj. Borland, after the second order of my expulsion, desiring to control my own movements, I made my escape, passed the mountains in two nights, on horseback, having bribed a famous guerrilla chief, Colin, who accompanied me with five of his desperate associates. I carried despatches from --- to Gen. Scott, (then at Puebla,) which I delivered at four o'clock in the morning, and afterwards continued with the noble commander, he availing himself of my minute knowlwith the American army. I arrived at Puebla two days before Gen. Pierce's brigade arrived there-and was never prouder of my country, and never so proud of my native State, as when that fine command marched into the city. All balconies were crowded, and such a reinforcement spread general joy through the army. The circumstances of the march, the en- the right of transit across the Isthmus of Tehuanteergetic, prudent and skilful manner in which it had pec. been performed—the daring courage manifested by the commander, particularly in crossing the National Bridge, when his hat was shot from his head-were of course the subjects of much conversation, and secured for General Pierce high admiration and ennever abated duirng the campaign.

Nothing could have been more cool and admirable than this whole movement,

I made the acquaintance of General Pierce thousands of miles from our native land, under circumstances that " tried men's souls." I found him there, what all know him to be here, and I cannot withhold this act of justice from one, who has as brave a heart, and as self-sacrificing a spirit, as ever warmed a true man's bosom. I know Gen. Pierce needs no vindication of his military conduct. His merit in this respect is proclaimed by the united voice of officers and menthose who participated and who know. But at the same time he may not be displeased with these hasty reminiscences from me. I have been so long from the country, that I feel but little interest in mere party Your ob'dt. servant,

The present session of Congress will positively of the war with Mexico I had been more than fifteen terminate on the 31st of the present month—four weeks hence. That is now fixed.

The President's Message in reply to the resolutions of Congress, relative to the fisheries, may be and its displeasure incurred in consequence of the soon expected; but, perhaps, not till after the arrival of Mr. Webster and Mr. Corwin, who will be here and the other Encarnacion prisoners. Immediately in a few days. The message will probably communicate the intelligence that the British government will not persist in their new construction of the convention of 1818. The British Provinces asked for railroads and for

bountles, and the Government gave them more fish whereof they had already more than enough. Now, the Provinces will beg, as a greater boon than either of the former, the privilege of exporting their products to the United States free of duty in these States; edge of the country, until I again entered the city with the American army. I arrived at Puebla two reciprocity, which will, however, require a legislative act also, in order to carry it into effect.

Mexico will not and does not pretend to resist the policy of the opening of this route to all nations. But, cherishing much pique against the United States, she will be slow to grant the right of transit to citizens of the United States, and under such a guaranty tire confidence. And these, I may safely say, were by the United States government as would be necessary to give it any value.

It remains to be seen what Congress will do or paign, but to state some facts within my own knowledge in relation to the operations of the 19th and 20th of August, and the 8th of September. On the 19th of the substantial rights of the American Company,

Richmond, July 13, 1852. PETERSBURG CLOTHING BAZAAR. THE subscribers having purchased the entire interest of N. Perry in the above celebrated establishment, respectfully announce to the citizens of North Carolina that they intend to relax no effort to retain the liberal patronage heretofore received from the numerous customers of the Bazaas in the O'd North State. Manufacturing as we do all our own clothing, and one of the firm being constantly in the market, thus having

facilities for purchasing our cloths, cassameres, &c. at first hands, and consequently at the lowest rates, we are enabled to compete in prices with Northern houses while our garments in point of style and workmanship, are not excelled by those of any other house in the State. It is unnecessary to enumerate the articles of which our stock is composed; suffice it to say that in our rooms may be found every thing pertaining to men's wear, of the party purchasing the property and furnishing goods of the most recent style and in The North-Eastern part of the

great variety
Our Custom Department,
Is constantly supplied with the most desirable goods, and those preferring their garments made to order, can here find a large assortment to select from, and with an efficient force of workmen we can get up a single garment or an entire suit at very short notice. A good fit and perfect satisfaction guarantied in every instance.

Merchants visiting the City should not fail to look through our stock, as we have opened an exclusive Wholesale Room, and manufacture largely, expressly for this branch of our trade. A. S. SHAFER & CO.,

SMUT AND SCREENING MACHINE. The only Machine of the kind that has stood the test and iven satisfaction to the public. It has surplanted every Smut Machine yet offered in the State, more or less of which has been taken down to make room for it. The public need lear no imposition, as there are now some 280 Machines running in N. C.; and I wish to offer no other Iron ore, with many species of rare and valuable minerals, references than the gentlemen who are using them, besides numberless other incentives calculated to refresh whose expectations have been more than realized in and strengthen the body, while they divert and interest their performance. It not only thoroughly cleanses the the mind of man, thereby promoting health and long k, Wheat of smut, but also purifies it of all other substances, almost to periection. It takes up but 4 ieet square in the Mill, and requires but little power. It is warranted locality for raising choice qualities of Tobacco and for five years against breaking or wearing out, and also to retain its cleaning qualities or that time.

There are a number of these Machines through which 100,000 bushels of Wheat have been cleaned, and they have never been out of order one day. There was awarded to it the Premium at the Maryland State Fair, and a Premium with a Silver Medal, at the Fair of the Maryland Institute, at Baltimore, last Fall.
